

Lamp base - Description	Power consumption	Lamp type	Light direction
E26 - Medium	1 x max 100 w	A	direct, indirect
E26 - Medium	1 x max 23 w fluo	Fluorescent self ballasted lamp	direct, indirect
GX24q-4	1 x 42 w	Triple tube	direct, indirect
Voltage supply	120 V		
Connection	Connect the electrical wires into j-box		
Fixing	Holes fit for installation		
Protection degree	Only dry location		
Ground	Yes		
Switch mode	Switch on/off		
Cable	Insulated, white, circular		
Ballast (where provided)	Included (dimnable on request)		
Structure	White painted metal		
Diffuser (where provided)	Not provided		

Lampshades fabric	TREVIRA® CS fabric 100% polyester Glow wire 960 °C

Design by Fly Design

Suspension with a curtain lampshade. The fabric, TREVIRA® CS, is fireproof and composed of two overlapping layers, an exterior black net with an interior fabric available in nine colours. Also available in one-layer fabric in the same nine colours, without the black net. Light sources can be chosen between incandescent, halogen, fluorescent or halogen lamps.

Typology: SUSPENSION
